SHWETA MANDAL | RESUME

❱ Status: B.E. in Computer Science; currently in third year

❱ Skills: C++, SQL, Firebase, HTML, ReactJS, NodeJS

❱ Github: https://github.com/Shweta2003

❱ LinkedIn: www.linkedin.com/in/shweta-mandal-a287a8253

❱ Activities: Reading, Music, Rowing, Kabaddi, Football, craft

❱❱❱ Summary

I love to learn and explore new technology and domains, I am very competitive in nature but also a team player. I have experience of handling teams as I have been part of various clubs. I have worked on few projects to improve my skills and at the same time I am a fast learner who can grasp new things real quick by making them fun. I can easily adopt to any working or learning environment and always ready to face new challenges.

❱❱❱ Projects

SAHARA   React Website

❱ Website to provide help and guidance to pregnant teenagers

❱ Ensure anonymity of victim and provide free counselling sessions

❱ Main aim to keep both the child and mother healthy and handle the situation legally without harming anyone physically or mentally.

❱ Link to github repo : https://github.com/Shweta2003/SAHARA

Helper   Android Application

❱ We have attempted to create an application for the ease of senior citizens.

❱ Provide a feature to hire workers from app's database so that they can get their jobs done and at the same time workers have more job opportunities

❱ Another feature to save a contact with image so that reading is minimized

❱ Language flexibility is provided so that senior citizen can use application even without knowing english

❱ Link to github repo : https://github.com/Shweta2003/Helper

Street Treat   Android Application

❱ search for menu from different shops

❱ Order food online and then go and pickup food on time displayed to avoid queuing

❱ Allows small food stall owners to promote their shops along with famous restaurants

❱ Link to github repo : https://github.com/Shweta2003/Street-Treat

Talkpass   Chatroom website (nodeJS)

❱ Allows user to enter a common chatroom

❱ Users can send and read message like a whatsapp group chat

❱ messages disappear once you leave the room

❱ Link to github repo : https://github.com/Shweta2003/talkpass

GDSC Website   Website for club GDSC

❱ Provides a chatbot to talk to

❱ Provides liberty to see past and future events and also the team members

❱ Link to github repo : https://github.com/DSC-DYPCOE/GDSC$_{Web_Frontend}$
